

# The 12th Asia-Pacific Conference on Transducers and Micro-Nano Technology (APCOT 2026)

## Sponsor Brochure

The 12th Asia-Pacific Conference on Transducers and Micro-Nano Technology (APCOT 2026) will be held from June 21 to 24, 2026, at The Splendor Hotel, Taichung, Taiwan. APCOT is one of the most important international conferences in the Asia-Pacific regions in the fields of MEMS, microsensors, and micro-/nano-technology applications. The conference is expected to attract over 300 participants, including leading researchers and industry professionals from across the Asia-Pacific regions.

The technical program will feature plenary and invited talks, oral presentations, poster sessions, industrial forums, and technical exhibitions. With more than 200 papers presented, the conference provides a comprehensive platform to explore cutting-edge technologies and emerging industrial trends.

APCOT 2026 will be co-located with the International Conference on Smart Sensors (ICSS 2026). Together, the conferences aim to establish a strong exchange platform connecting academia and industry in Taiwan with researchers and industrial partners throughout the Asia-Pacific regions, enhancing the international visibility of academic research achievements and the latest industrial technologies, while fostering long-term collaboration for future academic exchange and market development.

We sincerely invite your organization to support APCOT 2026 through exhibitions and sponsorship participation, and to join us in advancing the development of MEMS, microsensors, and micro-/nano-technology applications. We would be greatly honored by your continued support and participation in this year's exhibition activities.
