

APCOT2026 & ICSS 2026

The 12th Asia-Pacific Conference on Transducers and Micro-Nano Technology

June 21-24, 2026
Taichung, Taiwan

APCOT is a biannual conference of the Asia-Pacific scientific community on advanced sensors, actuators, and micro/nano technology. The conference provides a forum for scientists, engineers, and practitioners around the world to present their latest works, exchange ideas, and find new directions. The 12th APCOT will be held in Taichung, Taiwan, which is the second largest city in Taiwan. The city, located in central Taiwan, hosts numerous historic sites, modern attractions, natural sceneries, fine restaurants, and leisure spots.

Conference Scopes

- Theory, Design, and Simulation
- Material, Fabrication, and Packaging
- Physical Sensors and MEMS/NEMS
- Chemical Sensors and MEMS/NEMS
- Bio/Medical Sensors and MEMS/NEMS
- Micro/Nano Fluidics
- Actuators
- RF MEMS/NEMS
- Optical MEMS, Nano-Photonics, and Si-photonics
- Energy and Power MEMS/NEMS
- Sensor Interface and Networks
- Data Processing, AI, Machine Learning
- Novel Applications of Micro/Nano Systems

Important Dates

- Abstract Submission Deadline
January 31, 2026
- Notification of Abstract Acceptance
February 28, 2026

Organizers

General Chairs

Prof. Yi Chiu, National Yang Ming Chiao Tung University, Taiwan

Prof. Yu-Lin Wang, National Tsing Hua University, Taiwan
